

# Embedded BarCodes (EBC)

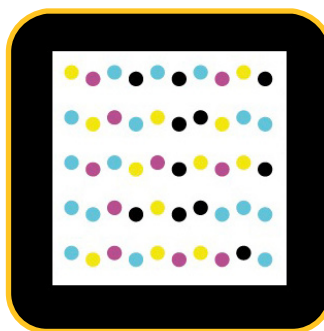

**OUTDOOR SIGNAGE AND FRAMES...  
OUTSIDE OF ORDINARY**

**EBC (Embedded BarCode) tags are super-tough tags** specially engineered to deliver superior performance in virtually any hostile environment. Each EBC tag is designed to resist the extremes of weather, any damage from harsh chemicals, and are easily recoverable from the effects of graffiti. With our **full color, digital printing process**, we are also able to combine graphics and text, along with variable data, to your barcode style of choice.

Pannier EBC tags can be customized. Need holes, slots, rounded corners, custom shapes, or any variety of mounting options?

**No problem.** Tags can be supplied to you with any size grommet, or even an adhesive backing for easy peel-and-stick installation.

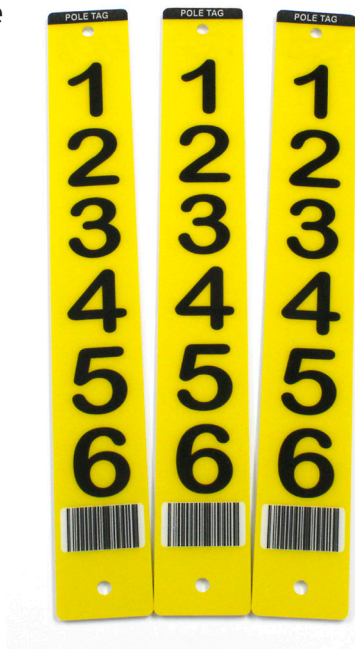

Tags can even be made two-sided, for when you need to supply information on both sides.

Four Color Microsoft HCCB Tag

Custom Pipe Markers

Custom Tag Number and Barcode

Serialized Barcodes

Gasoline Tags (Fuel Collars also available)
