

NAMEPLATE APP

Pannier's Nameplate App makes marking on nameplates and tags fast and easy. Provide samples of your nameplates and Pannier does the work of pre-configuring the dot peen machine and the app so that you can start marking right away. Install the app on a PC with Excel installed and connect the PC to the dot peen machine. The Excel spreadsheet contains a column for each field that needs to be marked. Enter the information to be marked into the designated columns and you're ready to mark.
