### 1. Product and company identification

<table>
<thead>
<tr>
<th>Product number</th>
<th>VMC 090</th>
</tr>
</thead>
<tbody>
<tr>
<td>Trade name</td>
<td>Viskoflex</td>
</tr>
</tbody>
</table>

#### Relevant identified uses of the substance or mixture and uses advised against

**General use:**
- Solvent, Cleaning agent.
- Reserved for industrial and professional use.

#### Details of the supplier of the safety data sheet

<table>
<thead>
<tr>
<th>Company name</th>
<th>PANNIER CORPORATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Street/POB-No.</td>
<td>207 Sandusky Street</td>
</tr>
<tr>
<td>Postal Code, city</td>
<td>Pittsburgh, PA 15212-5823 USA</td>
</tr>
<tr>
<td>WWW</td>
<td><a href="http://www.pannier.com">www.pannier.com</a></td>
</tr>
<tr>
<td>E-mail</td>
<td><a href="mailto:sales@pannier.com">sales@pannier.com</a></td>

<tr>
<td>Telephone</td>
<td>(412) 323-4900</td>
</tr>
</tbody>
</table>

### Emergency phone numbers

**INFOTRAC:** 24-hour telephone number: 1-800-535-5053

### 2. Hazards identification

#### Emergency overview

**Appearance:**
- Form: liquid
- Color: colorless

**Odor:**
- like solvent

**Classification:**
- Flammable Liquid - Category 2; Eye Irritation - Category 2A;
- Specific Target Organ Toxicity (Single Exposure) - Category 3;

**Hazard symbols:**

<table>
<thead>
<tr>
<th>Danger</th>
</tr>
</thead>
<tbody>
<tr>
<td>Highly flammable liquid and vapor.</td>
</tr>
<tr>
<td>Causes serious eye irritation.</td>
</tr>
<tr>
<td>May cause drowsiness or dizziness.</td>
</tr>
<tr>
<td>Repeated exposure may cause skin dryness or cracking.</td>
</tr>
</tbody>
</table>
Precautionary statements:

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
Ground/bond container and receiving equipment.
Use explosion-proof electrical/ventilating/lighting equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
Avoid breathing vapors.
Wash hands and face thoroughly after handling.
Use only outdoors or in a well-ventilated area.
Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
IF INHALED: Remove person to fresh air and keep comfortable for breathing.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Call a POISON CENTER/doctor if you feel unwell.
If eye irritation persists: Get medical advice/attention.
In case of fire: Use ... to extinguish.
Store in a well-ventilated place. Keep container tightly closed.
Store in a well-ventilated place. Keep cool.
Store locked up.
Dispose of contents/container to hazardous or special waste collection point.

Regulatory status

This material is considered hazardous by the U.S. OSHA Hazard Communication Standard (29 CFR 1910.1200) and SIMDUT in Canada.

Hazards not otherwise classified

Potentially explosive mixtures may form if adequate ventilation is not provided.
Inhaling can lead to irritations of the respiratory tract and mucous membrane.
Higher doses may have a narcotic effect.
Repeated exposure may cause skin dryness or cracking. Danger of cutaneous absorption.
see section 11: Toxicological information

3. Composition / Information on ingredients

RTECS-Number: EL6475000
Hazardous ingredients:

<table>
<thead>
<tr>
<th>CAS No.</th>
<th>Designation</th>
<th>Content</th>
<th>Classification</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAS 78-93-3</td>
<td>Methyl ethyl ketone 90 - 100 %</td>
<td></td>
<td>Flammable Liquid - Category 2. Eye Irritation - Category 2A.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Specific Target Organ Toxicity (Single Exposure) - Category 3.</td>
</tr>
</tbody>
</table>

4. First aid measures

In case of inhalation:
Move victim to fresh air, put at rest and loosen restrictive clothing. Keep airway open.
Seek medical treatment in case of troubles.
Following skin contact: Wash with plenty of water. Change contaminated clothing.
In case of skin reactions, consult a physician.

After eye contact: Immediately flush eyes with plenty of flowing water for 10 to 15 minutes holding eyelids apart. Subsequently consult an ophthalmologist.

After swallowing: Danger of aspiration! Do not induce vomiting.
Give activated carbon (20-40 g in a suspension of 10%).
Do not give fatty oils and milk.
Keep airway open. Immediately get medical attention.
Never give anything by mouth to an unconscious person.

Most important symptoms/effects, acute and delayed
May cause drowsiness or dizziness.
Causes serious eye irritation.
Following skin contact: Danger of cutaneous absorption.
Repeated exposure may cause skin dryness or cracking.
After ingestion: Nausea and vomiting. Danger of aspiration!
Even very small amounts of this product that enters the lungs as a result of vomiting may lead to inflammation of the lungs or a pulmonary edema.

Information to physician
Treat symptomatically.
After ingestion of high quantities: Gastric lavage
As a laxative, affected person should drink sodium sulfate (1 tablespoon in 1/4 L water).

5. Fire fighting measures

Flash point/flash point range: 24.8 °F (DIN 51755)
Auto-ignition temperature: no data available
Suitable extinguishing media: Water fog, foam, powder, carbon dioxide.
Extinguishing media which must not be used for safety reasons: High power water jet

Specific hazards arising from the chemical
Combustible. Highly flammable liquid and vapor.
Vapors are heavier than air and will travel at floor level.
Explosive mixtures with air may even form at room temperature.
Hazardous vapors may form during fires.
In case of fire may be liberated: Peroxides, carbon monoxide and carbon dioxide.

Protective equipment and precautions for firefighters:
Wear self-contained positive pressure breathing apparatus and full firefighting protective clothing.

Additional information:
Do not expose to high temperature. Danger of bursting and explosion. Cool exposed containers with water spray.
Move undamaged containers from immediate hazard area if it can be done safely.
In case of major fire and large quantities: Evacuate area. Fight fire remotely due to the risk of explosion.
Do not allow fire water to penetrate into surface or ground water.
Fire residuals and contaminated extinguishing water must be disposed of in accordance with the regulations of the local authorities.
### 6. Accidental release measures

**Personal precautions:** Eliminate all ignition sources if safe to do so.  
Do not breathe vapor or spray. Avoid contact with the substance.  
Provide adequate ventilation. Keep unprotected people away.  
When using do not smoke. Avoid sparks.  
Keep unprotected people away.  
Cordon off downwind area at risk and warn inhabitants.

**Environmental precautions:**  
Do not empty into drains. Danger of explosion!  
In case of release, notify competent authorities.

**Methods for clean-up:** Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents) and place in closed containers for disposal. Final cleaning.

**Additional information:** Take precautionary measures against static discharges.  
Use explosion-proof equipment and non-sparking tools/utensils.

### 7. Handling and storage

**Handling**

**Advises on safe handling:** Provide adequate ventilation, and local exhaust as needed. Do not breathe vapors.  
Avoid contact with skin and eyes. Wear protective equipment.  
Guarantee sufficient ventilation during and after use, in order to prevent vapour accumulation.

**Precautions against fire and explosion:**  
Keep away from sources of ignition. - No smoking.  
Take precautionary measures against static discharges.  
Use only explosion-protected equipment/instruments. Do not weld.  
In partially filled containers explosive mixtures may form.

**Storage**

**Requirements for storerooms and containers:**  
Keep container tightly closed and in a well-ventilated place.  
Keep container dry. Keep only in the original container.  
Protect from heat and direct sunlight.  
Store containers in upright position. Explosion protection required.

**Hints on joint storage:** Do not store together with combustible or self-igniting materials or any highly flammable solids.  
Keep away from: strong oxidizing agents, strong acids, strong alkalis. Keep away from food, drink and animal feedingstuffs.
8. Exposure controls / personal protection

Exposure guidelines

Engineering controls

Provide for good ventilation or exhaust system or work with completely self-contained equipment. Explosion protection required.

See also information in chapter 7, section storage.

Personal protection equipment (PPE)

Eye/face protection
Tightly sealed goggles according to OSHA Standard - 29 CFR: 1910.133 or ANSI Z87.1-2010.
For this environment make sure that the goggles have only indirect ventilation or no ventilation. As appropriate chose anti-fog coated lens.

Skin protection
Wear suitable protective clothing.
In case of handling larger quantities: Flame-resistant antistatic protective clothing.
Glove material: Butyl caoutchouc (butyl rubber)-Layer thickness: 0,7 mm.
Breakthrough time: >240 min.
Observe glove manufacturer's instructions concerning penetrability and breakthrough time.

Respiratory protection
Respiratory protection must be worn whenever the TLV (WEL) levels have been exceeded.
Use filter type A (= against vapors of organic substances) according to OSHA Standard - 29 CFR: 1910.134 or ANSI Z88.2.

General hygiene considerations:
Avoid generation of vapors/aerosols.
Do not breathe vapor or spray. Avoid contact with skin and eyes.
When using do not eat, drink or smoke. Change contaminated clothing.
After work, wash hands and face.
Use only non-sparking tools. Keep away from sources of heat (e.g. hot surfaces), sparks and open flames. Safety shower and eye wash station should be easily accessible to the work area.
9. Physical and chemical properties

Information on basic physical and chemical properties

Appearance: Form: liquid
Color: colorless

Odor: like solvent
Odor threshold: no data available

pH value: at 68 °F: 7

Melting point/freezing point: -122.8 °F

Initial boiling point and boiling range: 175.28 °F (1013 hPa)
Flash point/flash point range: 24.8 °F (DIN 51755)
Evaporation rate: no data available

Flammability: Highly flammable liquid and vapor.

Explosion limits:
LEL (Lower Explosion Limit): 1.80 Vol-%
UEL (Upper Explosive Limit): 11.50 Vol-%

Vapor pressure:
at 68 °F: 105 hPa
at 122 °F: 370 hPa

Vapor density: no data available

Density: at 68 °F: 0.805 g/mL

Solubility: at 68 °F: soluble in organic solvents

Water solubility: at 68 °F: 292 g/L

Partition coefficient: n-octanol/water: 0.29 log P(o/w) (experimental)

Bio-accumulation is not to be expected (log P(o/w) <1).

Auto-ignition temperature: no data available

Thermal decomposition: no data available

Viscosity, dynamic: at 68 °F: 0.4 mPa·s

Explosive properties: Vapors may form explosive mixtures with air.

Ignition temperature: 957.2 °F (DIN 51794)

Refractive index: at 68 °F: 1.38

Additional information: Molar mass: 72.11 g/mol
Relative vapor density at 68 °F (air=1): 2.48

10. Stability and reactivity

Reactivity: Highly flammable liquid and vapor.

Chemical stability: Stable under recommended storage conditions.

Possibility of hazardous reactions
Do not expose to high temperature. Danger of bursting and explosion.

Conditions to avoid: Keep away from heat sources, sparks and open flames. Protect against direct sunlight.
Incompatible materials:  Strong oxidizing agents, strong acids, strong alkalis.
   Exothermic reactions with:  Chromium trioxide, oxidizing agents, alcali hydroxide. Release
   of: peroxides.
   Ignition hazard! Release of highly flammable gas/vapor.
   Danger of explosion with: hydrogen peroxide, nitric acid, sulphuric acid.
   Unsuitable materials: various plastics

Hazardous decomposition products:
   In case of fire may be liberated: Peroxides, carbon monoxide and carbon dioxide.

Thermal decomposition: no data available

### 11. Toxicological information

#### Toxicological tests

Toxicological effects: The statements are derived from the properties of the single components. No toxicological
data is available for the product as such.

Acute toxicity (oral): Based on available data, the classification criteria are not met.
Information about Methyl ethyl ketone:
LD50, Rat, oral: >2600 mg/kg

Acute toxicity (dermal): Based on available data, the classification criteria are not met.
Information about Methyl ethyl ketone:
LD50, Rat, dermal: 5000 mg/kg
Rabbit, dermal: >8000 mg/kg

Acute toxicity (inhalative): Based on available data, the classification criteria are not met.
Information about Methyl ethyl ketone: LC50 Rat, inhalative: 12000 mg/L/4h

Skin corrosion/irritation: Lack of data.
Information about Methyl ethyl ketone:
Specific symptoms in animal studies: mild irritant (Rabbit).

Eye damage/irritation: Eye Irritation - Category 2A = Causes serious eye irritation.
Sensitisation to the respiratory tract: Lack of data.

Skin sensitisation: Lack of data.
Information about Methyl ethyl ketone: Sensitization: not sensitising (guinea pig).

Germ cell mutagenicity/Genotoxicity: Lack of data. Information about Methyl ethyl ketone:
Bacterial mutagenicity: Negative in the Ames test.

Carcinogenicity: Lack of data.

Reproductive toxicity: Lack of data.

Effects on or via lactation: Lack of data.

Specific target organ toxicity (single exposure): Specific Target Organ Toxicity (Single
Exposure) - Category 3 = May cause drowsiness or dizziness.

Specific target organ toxicity (repeated exposure): Lack of data.

Aspiration hazard: Lack of data.

Other information: After absorption of large quantities:
CNS disorders, inebriation, blood pressure drop, narcosis, cardiac arrhythmias.
Chronic uptake results in damage of: liver.
In case of inhalation: Mucous membrane irritation, cough, shortage of breath, dizziness.
In case of ingestion: Nausea and vomiting. Danger of aspiration!
Even very small amounts of this product that enters the lungs as a result of vomiting may lead to inflammation of the lungs or a pulmonary edema.
After contact with skin: May cause irritations. Danger of cutaneous absorption.
Repeated exposure may cause skin dryness or cracking.

12. Ecological information

Ecotoxicity

Aquatic toxicity: Information about methyl ethyl ketone:
Fish toxicity:
LC50 Pimephales promelas: 3220 mg/L/96h.
Daphnia toxicity:
EC50 Daphnia magna: 5091 mg/L/48h.
Algae toxicity:
IC5 Scenedesmus quadricauda: >= 4300 mg/L/7d.
Bacterial toxicity:
EC5 Pseudomonas putida: 1150 mg/L/16h.

Mobility in soil

no data available

Persistence and degradability

Further details: Information about methyl ethyl ketone:
Abiotic degradation: quickly degradable (Air).
DOC reduction: >70%; BOD >60%; BOD5/COD ratio: >50%
Product is readily biodegradable.

Additional ecological information

Oxygen demand: BOD: (Methyl ethyl ketone, of ThOD/5d) 76 %
COD: (Methyl ethyl ketone, of ThOD) 95 %
ThOD: (Methyl ethyl ketone) 2.44 g/g
Volatile organic compounds (VOC): maximum 100 % by weight = 805 g/L
General information: Do not allow to enter into ground-water, surface water or drains.

13. Disposal considerations

Product
Recommendation: Dispose of waste according to applicable legislation.

Contaminated packaging
Recommendation: Dispose of waste according to applicable legislation.
Non-contaminated packages may be recycled.
14. Transport information

USA: Department of Transportation (DOT)

Identification numbers: UN1263
Proper shipping name: UN 1263, Paint related material
DOT hazard class or division: 3
PG: II
Label codes: 3
Special provisions: 149, 367, B52, IB2, T4, TP1, TP8, TP28
Packaging - Exceptions: 150
Packaging - Non-bulk: 173
Packaging - Bulk: 242
Quantity limitations - Passenger aircraft / rail: 5 L
Quantity limitations - Cargo only: 60 L
Vessel stowage - Location: B

Sea transport (IMDG)

UN number: UN 1263
Proper shipping name: UN 1263, Paint related material
IMDG: Class 3, Subrisk -
PG: II
EmS: F-E, S-E
Special provisions: 163, 367
Limited quantities: 5 L
EQ: E2
Contaminated packaging - Instructions: P001
Contaminated packaging - Provisions: PP1
IBC - Instructions: IBC02
IBC - Provisions: -
Tank instructions - IMO: -
Tank instructions - UN: T4
Tank instructions - Provisions: TP1, TP8, TP28
Stowage and handling: Category B.
Properties and observations: Miscibility with water depends upon the composition.
Marine pollutant: No
Segregation group: none

Air transport (IATA)

UN/ID number: UN 1263
Proper shipping name: UN 1263, Paint related material
ICAO/IATA: Class 3
PG: II
Hazard: Flamm. liquid
EQ: E2
Passenger Ltd Qty.: Pack.Instr. Y341 - Max. Net Qty/Pkg. 1 L
Passenger: Pack.Instr. 353 - Max. Net Qty/Pkg. 5 L
Cargo: Pack.Instr. 364 - Max. Net Qty/Pkg. 60 L
Special Provisioning: A3 A72 A192
ERG: 3L
SAFETY DATA SHEET
